

Creating a Romanian company - create your own limited in Romania

The minimum share capital for an SRL company is 200 RON (around 50 €), provided the business has no more than fifty shareholders:

- * Must have between one and fifty shareholders*
- * Shareholders may be Romanians or foreign nationals*
- * Low administrative and reporting requirements*

You can have your own Rumanian SRL without having to move.

We establish it from Belgium by proxy, which saves you enormous relocation expenses.

We make the constitutive act (or bylaws) according to your needs – tailor made and we make sure that you are ready for EU subventions as they have 32 billion Euro until 2013 (non-refundable grants).

You will only arrive in Rumania when your S.R.L. is ready for operation.

We will reserve your unique company name within seven working days.

We will arrange a reliable accountant at discounted fees.

We will look after all translation work. The notary is at walking distance from our office in Belgium.

We will help you with the selection and introduction of your bank and with the arrangement of your accounts.

We arrange any hosting the way you desire (post box, apartment, villa, office etc...). This will be billed separately, but we will see that you get a hosting in the S.R.L. name.

We will give you practical support regarding activating your company i.e. an operating account and an active VAT number.

You will save on travelling costs and you will suffer no loss of time.

We offer the same service throughout Rumania at a fixed all-in price.
